### VINTAGE HAND CARVED STONEMWORK BECOME DECORATIVE GARDEN FOUNTAINS

In a small village in France, known for the antiques that are omnipresent on the narrow streets, there is a fantastic factory producing new hand carved limestone fountains. Eye of the Day has been fortunate to feature many of these special fountains over the years. These master stonecutters produce fountains, statuary, staircases and more with methods that have been used for centuries. Graceful wall fountains with delicate, carved scrollwork, fanciful fish and flower motifs are available. There are also "centrale" fountains, made to compliment a courtyard or open area.
